

# Specification Sheet

**Line 1:** HP Desktop PC (no equal) with the following specifications:  
**CPU:** Intel Pentium Dual-Core E5300 or better  
**RAM:** 2GB DDR2-800 or better  
**Hard Drive:** 160GB SATA or better  
**Optical Drive:** CDRW/DVD combo drive or better  
**Video:** Must be capable of using two LCD monitors using digital DVI connections. All required adapters or special cables must be included.  
**Network:** Onboard 1Gbs Ethernet connection with wake-on-LAN capability  
**Mouse:** Standard USB optical mouse  
**Keyboard:** Standard USB keyboard  
**Speakers:** A set of two stereo speakers compatible with PC  
Small Form Factor  
Energy Star Compliant  
Windows Vista Business Operating System License  
Four year 9x5 NBD onsite response warranty. Warranty replacement of a hard drive shall not require return of the defective hard drive.

**Custom Image:** The PC's will be loaded at the factory with a custom disk image furnished by DHR. To this end, once the apparent low bid is determined, the vendor must furnish two machines as bid, including all accessories, complete in every way, prior to final bid award for evaluation against the bid specifications and so DHR can develop the image required. A separate CD or DVD with all required hardware drivers, or an internet address to download required drivers from must be included with these sample. Drivers must be furnished for Windows XP as well as Windows Vista, and Vista drivers must be furnished for 32bit as well as 64bit Vista. DHR shall have two weeks from receipt of these machines to develop the image. Assuming the vendor receives the final bid award, the vendor will invoice these two sample machines as the first two delivered machines from the total on the bid.

**Self-Maintenance:** DHR currently self-maintains its HP desktops under warranty, and will continue doing so. Accordingly, any required new certification requirements for DHR to continue self-maintaining HP hardware must be included. This includes but is not limited to any training classes or courses as well as any certification tests. This shall be provided for up to 20 DHR technicians.

**Line 2:** HP (or equivalent) 19" LCD monitor (or better), non-widescreen  
**Resolution:** 1280x1024 or better  
**Contrast Ratio:** 800:1 or better  
**Connections:** At least one DVI-D digital input and at least one VGA analog input. Connections may be combined into one connector, as long as appropriate adapters or cables are included to permit connection to both standard DVI-D or VGA connectors.

# Specification Sheet

**Warranty:** Four year next business day replacement. Pre-shipping of old monitor not required. Replacement monitor will be shipped to any address of DHR's choice within the state of Alabama. Return of defective monitor to be at vendor's expense.

## Common Terms For All Units

**Delivery:** All PC's and monitors shall be deliverable starting within two weeks from final awarding of the bid in lots to be determined by customer. No shipment shall be made of any lot without prior authorization by customer.
